## Advanced Technology Video (ATV) exhibiting at REACH Conference in Raleigh, NC May 15-16

Coppell, TX – April 21, 2017 – [Advanced Technology Video](#) (ATV), a leading provider of innovative video surveillance solutions since 1983, announces it will be exhibiting at the [REACH Conference](#) in Raleigh, NC May 15-16, 2017. The REACH Conference purpose is to inspire, educate and equip churches with new ideas and training in worship technology, facilities, safety and communications. ATV's Vice President of Sales and Marketing, Keith Shaver, will be a featured speaker discussing Video, Access Control, Safety and Security Technologies for church facilities.

During the Showcase Exhibition ATV will preview their [Next Level Security Systems](#) (NLSS) IP-based security management platform which integrates video management, access control, intrusion, video analytics and managed services into a single appliance. The NLSS unified products are fully integrated with ATV IP cameras for seamless API programming and are employed in enterprise-class education, retail and government physical security installations across the globe.

The NLSS Gateway is a completely unique IP security solution that can be accessed through the Web browser. Data from all the various subsystems is automatically correlated into a sophisticated event management system, providing users with a comprehensive view of security operations. Video, access, intrusion, system health events and more can be linked to specific actions or automatically send email notifications. Because there is no software to install, the NLSS Gateway is a true browser-based solution that can be accessed from any Web enabled device.

*"As always we are committed to providing our customers with options to the more traditional security system platform and continuing our tradition of offering ever-increasing value and flexibility for the Next-Level of product and service support," says Keith Shaver, Vice President of Sales and Marketing, ATV.*

**About Advanced Technology Video:** Advanced Technology Video has been a force in the security business since 1983. Since then, we've delivered products with unmatched reliability and value to the security industry. Today we're stronger than ever, with a complete lineup of CCTV products that set industry standards for dependability and support. Our full line of cameras, recorders and other devices are loaded with features you won't find anywhere else at the same price. And we back those products with the best customer service and technical support available anywhere. So take a good look at all we have to offer. It's clear that whatever the needs or the application, ATV offers just what you demand.

### Security without compromise
