## ATV-Next Level Security Systems exhibiting at WFX Conference and Expo October 10-12

Coppell, TX – September 11, 2017 – [ATV-Next Level Security Systems](#) (ATV-NLSS), a leading provider of innovative integrated security solutions, will be exhibiting at the [WFX Conference & Expo](#) at the Kay Bailey Hutchison Convention Center in Dallas, TX on October 10-12, 2017. The WFX conference and expo is designed to inspire, educate and equip churches with new ideas and training in worship administration, technology, facilities, safety and communications. Keith Shaver, Vice President of Sales and Marketing at ATV-NLSS, will be a featured speaker discussing the “*Layered Security Approach*” to evaluate church security requirements by reviewing the security issues, current situation, and future needs. The data collected can then be used by the church to help determine the type of systems needed to meet the requirements.

**ATV-NLSS** is actively engaged with faith-based facility security system designs and can provide system solutions ranging from a basic, easy-to-operate video surveillance system to a more advanced, integrated security system for church and school campuses. During the Expo ATV-NLSS will be demonstrating its’ [IP-based security management platform](#), a completely unique security solution that integrates video management, access control, intrusion, video analytics and managed services into a single Gateway appliance.

The [NLSS Gateway](#) is a powerful network appliance that collects data from all the various subsystems and automatically transforms it into a sophisticated event management system, providing users with a comprehensive view of security operations. Video, access, intrusion, system health events and more can be linked to specific actions or automatically directed to send email or text notifications. Because there is no software to install, the NLSS Gateway is a true browser-based solution that can be accessed from any Web enabled device.

With regional and national support, ATV-NLSS provides the best customer service and technical support available anywhere. “So take a good look at all we have to offer your church, daycare, K-12 school, facility or campus,” says Keith. “It’s clear that whatever the needs or the application, ATV-NLSS can offer a custom solution to fit your requirements”.

**About ATV-Next Level Security Systems:** ATV-NLSS, a force in the security industry since 1983, has been delivering solutions with unmatched reliability and value ever since. Today we’re stronger than ever, with a complete lineup of video and integrated security products that set industry standards for dependability and support. Our full line of cameras, network appliances and other devices are loaded with features you won’t find anywhere else at the same price. And we back those products with the best customer service and technical support available anywhere.
