Advanced Technology Video (ATV) Announces Integration with Exacq Technologies

Coppell, TX – August 6, 2015 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the integration of our ATV IP cameras and NVRs with Exacq Technologies exacqVision Video Management System (VMS).

The integration with exacqVision allows the user to manage live and recorded video for a wide range of needs. The feature rich VMS is easy-to-use, flexible and highly reliable for any size system.

“ATV is excited to offer our customers the extremely powerful exacqVision VMS integrated with our wide selection of IP cameras”, says Keith Shaver, ATV’s VP of Sales and Marketing.

Founded in 2002, [Exacq Technologies](#) is a leading manufacturer of video management system (VMS) software and servers used for video surveillance. Known for its ease of use, the exacqVision cross-platform VMS software is widely used across many applications. Exacq Technologies is part of the Security Products business unit of Tyco (NYSE: TYC), the world's largest pure-play fire protection and security company.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983.
